183	2	Eq. 7.11b	There is an extra set of parentheses at end of equation. It should be: $\ln(Y) = \ln(a_1) - b_2 \ln(s) - b_1 s$
200	2	Eqs. 7.31 and 7.32	There should be a minus (-) sign before the parameter on the right-hand side for both equations.
241	2	32	In the second version of the equation for the beta-binomial distribution [$\Pr(Y)$], lower case x in the beta function [$\text{Be}(\cdot)$] on the right-hand side should be Y (there is no x for this equation).
